
Alan Rosete Mendoza

Frontend Developer with 3+ years of experience, primarily in banking. Develop financial modules using React and TypeScript within a microfrontend architecture (Single-SPA), with a strong focus on performance and quality: ~40% reduction in load times through code splitting and lazy loading, and ≥80% test coverage with Jest within CI/CD pipelines using quality gates. Experience with Docker, Rancher, and AWS, complemented by a Fullstack background in .NET, Django, Node.js, and SQL Server.

Professional Experience

Banco Azteca

Dec. 2024 – Present

React Frontend Developer

- Develop Deposits/Investments modules within a microfrontend architecture using Single-SPA and SystemJS, integrating React, JavaScript, and TypeScript applications loaded on demand.
- Implemented RSA-OAEP encryption and JWT handling for API consumption.
- Optimized bundle size and load times by ~40% through code splitting and lazy loading.
- Maintained CI/CD pipelines with automated tests in Jest and Testing Library, sustaining SonarQube quality gates (80–100% coverage) and delivering releases free of critical bugs and vulnerabilities under Clean Code and SOLID principles.

Mexicode

Oct. 2023 – Sep. 2024

Fullstack Web Developer

- Led the development of an attendance management system with C#, .NET, Windows Forms, LINQ, and MS SQL, implementing authentication, clock-in/clock-out, skills, statuses, and date-range reporting.
- Built websites and web applications using React, JavaScript, WordPress, and CSS3, integrating APIs and working with relational databases according to project requirements.
- Performed code reviews and managed pull requests, contributing to standards compliance.

Holding HSI

Feb. 2023 – Oct. 2023

Software Developer – IT

- Developed internal applications with Django and MS SQL (enterprise core + end-to-end warranty management), improving operational efficiency by ~40%.
- Reduced response and processing times through SQL query optimization and efficient business logic.
- Produced technical documentation and delivered user training on corporate tools.

Education

B.S. in Computer Systems Engineering

Jul. 2021 – Apr. 2025

- Universidad de Ciencias y Administración, Mexico City

Information and Communication Technologies

Aug. 2019 – Jul. 2021

- Valentín Gómez Farías High School, Cuernavaca, Morelos

Languages

- Spanish: Native
- English: Intermediate (B2) — fluent technical reading

Certifications and Courses

- Python: Intelligent Development with AI — 2025
- React Native Expo: Applications for iOS and Android — 2025
- React PRO: Take Your Fundamentals to the Next Level — 2024

Technical Skills

- **Frontend:** React, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, SASS, Tailwind
- **Backend:** Node.js, Django, .NET, C#
- **Testing & DevOps:** Jest, Enzyme, Testing Library, Docker, Rancher, Harbor, Postman
- **Databases & Cloud:** MS SQL, PostgreSQL, MongoDB, Firebase, AWS
